Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. The compounds according to claim 1 of formula I, wherein B is C, C is C and D is C. These are classifiable in class 546, subclass 81.
- II. The compounds according to claim 1 of formula I, wherein B is C, C is C and D is N. These are classifiable in class 544, subclass 273.
- III. The compounds according to claim 1 of formula I, wherein B is C, C is N and D is C. These are classifiable in class 544, subclass 362.
- IV. The compounds according to claim 1 of formula I, wherein B is N, C is C and D is C. These are classifiable in class 544, subclass 296.
- V. The compounds according to claim 1 of formula I, wherein B is N, C is C and D is N. These are classifiable in class 544, subclass 320.
- VI. The compounds according to claim 1 of formula I, wherein B is N, C is N and D is C. These are classifiable in class 548, subclass 357.
- VII. The compounds according to claims 6-9. These are classifiable in class 534, subclass 659.

The inventions of Groups I-VII are separate and patentably distinct because there is no patentable co-action among them and a reference anticipating one member will not render another obvious.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and different classification, a search of the seven groups designated above

would impose an undue burden upon the examiner, and restriction for examination purposes as indicated is proper.

A telephone call was made to Steven Eck on March 15, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is requested to elect a specifically disclosed species of the invention to be examined for search purposes.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PAUL V WARD whose telephone number is 571-272-2909. The examiner can normally be reached on M-F 8 am to 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0642. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
